

Country Series

DRACME
CAST STONE FIREPLACE SURROUNDS

Elk Ridge

Dracme's New Country Series Elk Ridge fireplace surround offers you all of the Charming Rustic Look of a natural cut stone hearth done cleanly in five minutes vs. one day and a half. A cut stone fireplace surround job can take a couple of days to complete and turn your room into a dusty work site.

With the Elk Ridge, what you see is what you get!

This Elk Ridge model has each of its stones cast in their own mold to ensure consistent size and color match; they are then grouted together in the factory following the same pattern so that each finished mantle is an exact replica of the original. This stone mantel do not require special wall and floor reinforcement.

The Elk Ridge is shipped in one piece

Manufactured in four industry standard sizes, the Elk Ridge's options include a choice in wood shelves (Oak or Maple), a proportionally matching hearth base and black metal trim filler panels.

Shelf Options

Oak wood shelf

Maple wood shelf

3 Easy steps to Install the Elk Ridge mantel

The completed fireplace surround is shipped in one piece and can be installed in five minutes.

Step one

Step two

Step three
